

# IBOCO Din Rail. The Way You Want it!

IBOCO, the Global Leader in wire management, has the abilities to customize all profiles of din rail.

IBOCO will modify your din rail, and wire duct, to your project specifications, add labels, and package the items in kits designed by you.

This eliminates dangers of cutting and drilling product involving sharp edges and blades, as well as lengthy hours spent cutting. Frees you to focus on other areas of your business.

We also have standardized, Pre-cut popular lengths of din rail already in stock, and available for quick shipment.
