

:hager Wire Ducts

Features and Benefits

- The Hager Brand wire duct reflects the mounting hole configuration of all “North American” branded wire duct. Immediate mounting to your back panel or enclosure specified mounting holes. Wire ducts are available in different types to suit your needs. Standard finger PVC wiring duct is 2-meters in length. Narrow finger/high density duct is ideal for use with high-density terminal blocks.
- Hager Brand lids include a protective, removable film, that can be easily removed after installation, eliminating unwanted scratches or smudges. The lid is a flush cover that snaps securely over the fingers, ensuring a tight fit with minimal effort.
- Flexible, double scoreline for fast and easy modification. No cutter needed for first scoreline. Flush/Burr free break. Second scoreline easily removed with Triton side wall cutter.
- Soft coated fingers ensure tight cover fit in vertical positions.
- Heavy-duty shipping carton guarantees “damage free” wire duct, and inclusive lids, ensuring complete product integrity, ready to mount.
- Orders normally ship within 48 hours.
